Hi Jeremy –

Thank you for speaking with Kim and me this past Monday concerning the planned U&O FIP. EPA anticipates taking final action on this rule in the near future, but as we discussed we would first like to offer the Tribe the opportunity to consult with the agency about it. I expect that we will soon send a letter to the Business Committee with a formal offer to consult. Meanwhile, to assist the Tribe in reviewing the draft final rule and in deciding whether to engage in consultation, attached is the current version of the FIP's regulatory language, as well as an excerpt from the preamble that summarizes the changes between the proposed and the final versions of the rule. Please let us know if you have any questions about this material.

We also wanted to see if you would be interested in scheduling a call to discuss the draft final FIP ahead of the next Business Committee meeting on June 28. Would you and Mike Natchees be available at 3:30 pm on either Wednesday, June 22, or Thursday, June 23?

Thanks again –
Mike
